Experience

Software Intern   Nov2023-july 2024

- MCR Web Solutions Pvt. Ltd. - software development   Bhimavaram, India
- Working as Software developer for the project Lunch Box.
- Lunch Box - A Startup by the Startup club of SRKREC CSD .
- Lunch Box is a pick and Drop delivery service of school children lunch from their home to School.
- With the Zoho Creator we developed a mobile application for the delivery agent and also the parent to enhance the delivery Process and also update the live status of lunchbox to parents.

Projects

International Conference Website   AP

- Designed and developed a website forthe School of Life Sciences at the University of Hyderabad to facilitate the International Conference on Intra- and Inter-Cellular Regulatory Systems. Implemented user-friendly features and ensured seamless navigation for conference attendees. The website served as a central hub forinformation dissemination,registration, and resource access, contributing to the success of the event.
- Available at: https://iicrs2024-uohyd.in/.

BANKING MANAGEMENT SYSTEM   AP

- Developed a Bank Management System utilizing core Java, SQL, and data structures for efficient and secure customer account management. Effectively communicated with team members to understand project requirements.
- Available at: https://github.com/vivekhari970/BankManagementSystem.

Community Service Project   AP

- Led initiative to digitize 40 local shops and Developed a website dedicated to online booking services for vegetable shop using HTML and CSS.
- Available at: https://vivekhari970.github.io/vamsi/.

Technical Skills

Languages: C, Java, Python(Basics) ,Deluge script
Technologies: HTML, CSS, JavaScript, PHP, ReactJS
Tools: VSCode, Git, GitHub, Zoho Creator
